

# Wish I Could Fly

Mark Battles

The king is finally home  
Off the road and back in my zone  
I gotta catch 'em alone  
All these niggas sneak diss when I'm gone  
But when I'm back they blowing my phone  
It's only making me strong  
Impatient, I can't wait to be on  
I'mma spend a hundred grand every place that we roam  
Yeah I'm kidding but my business on the way to be known  
Plus my sister went to college, who gonna pay for these loans?  
I gotta get it, said I was dreaming too big  
But all the things I seen as a kid, it made me swing for the fence  
You can't tell me this as good as it gets  
You see my face, am I looking convinced?  
Hello ladies and gents, give me your mind, you can pay me in cents  
Hope it translate to money, gotta pay for the rent  
Not complaining 'bout my life or the way that it went  
I'm just preparing for the future with the greatest intent

I just wish I could fly away  
(I just wish I could fly  
Get away from here and live in the sky  
I just wish I could) fly away  
(Really wish we could fly  
Get away from here and live in the sky  
I really wish we could)

Help beef tenderize when they hear what you made  
It's rare meat to medium cause I feel what's at stake  
Got sober on my own, couple years of mistakes  
Ain't breaking mama's heart, no more tears on her face  
So your boy got to cooking  
Spicing up the game got a taste and they hooting  
Fell in love with the boss, now they looking to boogie  
Fell in love with the cars, now they look and we push it  
But I gotta thank God man, look where you put me  
Got me through them rough times, glad that he pushed me  
Went for my dreams, had the passion and look it  
Still wonder why you hate on me, you made that you couldn't  
Backing from the team, we sharing half of the cookie  
We needed what we needed, ain't no asking, we took it  
Look it, I ain't stressing 'bout my past ways  
Hope I earn my wings when I'm dancing my last dance

I just wish I could fly away  
(I just wish I could fly  
Get away from here and live in the sky  
I just wish I could) fly away  
(Really wish we could fly  
Get away from here and live in the sky  
I really wish we could)
