

# That Side Of You

Mark Chesnutt

Last night I dreamed I went to sleep for good  
And in the crowd that gathered round. There you stood  
When it finally came your turn to say goodbye  
Right then and there I watched you break down and cry

And that's when I knew I was dreamin'  
The vision was too good to be true  
It'd take much more than me dying  
For me to ever see that side of you

At first I thought you were an angel  
Waiting there to carry me away  
Then the pain left my heart when I felt your touch  
And in your arms I found everlasting love

And that's when I knew I was dreamin'  
The vision was too good to be true  
It'd take much more than me dying  
For me to ever see that side of you
