

# Wheels

Mark Lanegan

Light ahead proves that the wheels broke down  
Here I am, still hangin' on, well alright

Shadows only disappear  
Just look around there's no one here  
A little spirit turned my light on out and now

Can never be no doubt  
You got to walk in the morning sun  
And got to smile at everyone

Go my love on your way to bigger and  
Bright better days  
And I'll go crazy for it all

And I won't stop lovin' you, baby  
Oh, yeah, here I am  
This feeling inside a body

Light ahead proves that the wheels broke down  
Here I am, still spinnin' round

Shadows only disappear  
Just look around there's no one here  
A little spirit turned my light on out and now

Can never be no doubt  
I'm gonna wait till the stars come down  
My little love smiles on a wing

For all a raindrop and tears not wasted there  
Been pourin' down all day  
Runnin' round catchin' 'em, baby  
Run around catchin' 'em, baby

Whichever way they fall  
Won't stop lovin' you, baby  
Whichever way you go, oh, yeah

Here I am, here I am  
Just runnin' round catchin' 'em  
Whichever way they fall all night long
