

## Wild Flowers

Mark Lanegan

I have to watch you come back to earth  
Now it's all I can do  
Will you still be convinced wild flowers  
Are waiting for you

In my mind I've done good things  
And never cared why  
And my mind is an open door, with nothing inside

Looks like the autumn is upon us  
It's turnin' so cold  
When everything said's either faded out  
Or written in stone

If you could find an easier road, you'd take it today  
You could have taken me anywhere  
You just take it away

I have to watch you come back to earth  
If it's all I can do  
Will you still be convinced wild flowers  
Are waiting for you

Have we ever done good things  
And never cared why  
'cause my mind is an open door, with nothing inside
