

# Forgive Me

Mark Medlock

sometimes i wish that i'm a better man and i can't  
understand the dark side of the world  
sometimes i wish i'm coming home again seeing all my  
friends and i know it hurts  
i'm loosing all forever and i don't know where to go  
sometimes my heart is broken and never fly this low

forgive my fault i do it better forgive my heart it  
doesn't matter 'cause baby my love try to get it better  
all the time

forgive my fault i try it ever forgive my heart i never  
say never you can it know i try with all my heart....  
ohoh..

sometimes i wish that i'm free again a live change  
everything but i don't complain  
sometimes i wish i do all i can and it's a crazy world  
but here i am sometimes im just a prisoner  
i'm a fool anymore now i'm going my way 'cause im  
stronger than before

forgive my fault i do it better forgive my heart it  
doesn't matter 'cause baby my love try to get it better  
all the time

forgive my fault i try it ever forgive my heart i never  
say never you can it know i try with all my heart

sometimes i wish that i'm a better man and i can't  
understand the dark side of the world sometimes i  
wish...
