My Life

Mark Morrison

Been around the world, played lots of girls
Just the way I lived my life
Did lots of dirt, caused lots of hurt
Was the way I lived my life

Been around the world, played lots of girls
Just the way I lived my life
Did lots of dirt, caused lots of hurt
Was the way I lived my life

Went to Miami, wish I never came back
Knew you were angry 'cause I flirted way back
Thought you'd get over it, but I was a fool (I was a fool)
To think I'd be in love without you, girl (be in love without you, girl)

Even when we went on a private plane, yeah
Drank in my room then passed out on the stage, yeah
I nearly died and I resuscitated with 15 babes
Now I regret the days

Been around the world, played lots of girls
Just the way I lived my life
Did lots of dirt, caused lots of hurt
Was the way I lived my life

Been around the world, played lots of girls
Just the way I lived my life
Wasting my time, losing my mind
It was the way I lived my life, life, life, life

Was the way I lived my life, life, life, life, life
It was the way I lived my life

I thought about you every night and day now
My heart was broken 'cause you felt the pain now
Walked on the beach at night, you drift like the ocean waves
I feel lost without you, babe

Tried to move on but, girl, it's not the same, yeah
They only love me back 'cause of the fame, yeah
You really loved me and I miss your face, yeah
I miss your face, I'll make it up to you someday

Been around the world, played lots of girls
Just the way I lived my life
Did lots of dirt, caused lots of hurt
Was the way I lived my life

Been around the world, played lots of girls
Just the way I lived my life
Wasting my time, losing my mind
It was the way I lived my life

Been around the world, played lots of girls
Just the way I lived my life
Did lots of dirt, caused lots of hurt
Was the way I lived my life, life, life, life
