

## Down No More

Mark Morton

Don't wanna sing about bein' down no more  
Don't wanna drink it away, don't wanna walk that floor  
Spent half my life livin' all the way rolled  
Couldn't drop the rock, so I drug it along  
Don't wanna think about the mistakes I made  
When I came up short and a little too late  
Ain't livin' like I was before, tossed the key and I locked the door  
Don't wanna sing about bein' down no more

I was speedin' off the rails  
Chasin' that dragon straight to Hell  
Hands off the wheel, standin' on the throttle  
Tryin' to put out fires with a bottle  
Put in the ditch on some wrong turns  
Jumped off all the bridges that I burned  
Well, I've been to Hell, and it's safe to say I burned out and  
I turned a page  
That ain't me no more these days

Don't wanna sing about bein' down no more  
Don't wanna drink it away, don't wanna walk that floor  
Spent half my life livin' all the way rolled  
Couldn't drop the rock, so I drug it along  
Don't wanna think about the mistakes I made  
When I came up short just a little too late  
Ain't livin' like I was before, tossed the key and I locked the door  
Don't wanna sing about bein' down no more

Back up to the wall  
Lord, I'm down here on my knees  
Hand to the flame  
Nobody left to blame but me

Don't wanna sing about bein' down no more  
Don't wanna drink it away, don't wanna walk that floor  
Spent half my life livin' all the way rolled  
Couldn't drop the rock, so I drug it along  
Don't wanna think about the mistakes I made  
When I came up short and a little too late  
Ain't livin' like I was before, tossed the key and I locked the door  
Don't wanna sing about bein' down no more
