

Boy

Mark Owen

Boy, get up, got bills to pay
Got bridges to build, don't waste away
Boy, get up now where'd you go
You been dragging your heels down the side of the road
Gotta wind back up your feet, got dragons to slay
You've got 24 hours still left in the day

Stop waitin' for someone to save you
'Cause the time may never come
And the nights get left behind
And the world keeps movin' on
You gotta widen your horizons
Boy, while you can
Boy, get up, don't wait too long
Don't wanna see you turnin' into stone

Oh boy
Won't you come on over?
Won't you hang around?
You and I, you and I
We got some things in common
But don't you leave it too late

Boy, get up places to be
Got plenty more charge in your battery
Got plans to make, got bones to break
Don't wanna see you drift your life away

Stop waitin' for someone to save you
'Cause the time may never come
And you wake up in the future
And everybody's gone
Gotta get back onto your horse, boy
Ride while you can
Boy, get up don't wait too long

Oh boy
Won't you come on over?
Won't you hang around?
You and I, you and I
We got some things in common
But don't you leave it too late
Oh boy
Won't you come on over?
Won't you hang around?
You and I, you and I
We got some things in common
But don't you leave it too late

Stop waitin' for someone to save you
'Cause the time may never come
And the girl you've bet your life on
She never comin' back
Yeah she ran off with your rival
From another band

Oh boy

Won't you come on over?
Won't you hang around?
You and I, you and I
We got some things in common
But don't you leave it too late
