

## Green Man

Mark Owen

Early morning juices blend he chooses  
Bowl of seed and water cleanses  
Caffeine free with herbs for tea  
Clear and fresh he won't be tempted  
High on C he's staring at me  
We make us seem far apart  
Dead for awhile, resurrects with a smile  
Pulls my conscience inside apart

Green man

I'll take a leaf from your book  
Found a new love  
I say peace man

Green man

I'll take a leaf from your book  
Found a new love  
I say peace man  
Second sight no sense of fright  
He lives his life for the moment  
He stands like a god an enlightened god  
Ruby centres in his crown  
Man of wealth loaded with health  
A lion with a mother's heart  
Magic man with your save Earth plan  
Thanks for giving me my part

Green man

I'll take a leaf from your book  
Found a new love  
I say peace man

Green man

I'll take a leaf from your book  
Found a new love  
I say peace man  
Our body is a precious thing, treat it with care, treat it as we  
are  
As a snake sheds its skin you've got to shed your past over and  
over  
Again the more that you give the more you'll receive so give yo  
ur  
Love for free, don't live for the past or the future, live now
