

# How Do You Love

Mark Owen

Do you love, yeah  
Can you tell me how it feels?  
Is your heart running,  
So fast it becomes still?  
Is it true you breathe in butterflies?  
Is it true you blow out stars?  
When you love, yeah?  
Does your mind open?  
Do you see who you are,  
When the walls that you build,  
Start to fall to the ground,  
Why do you never come down?  
Boys and girls share crystal champagne kisses  
Just to taste the rain  
Racing cars and chasing satellites  
We crash alone again  
How do you love love?  
How do you love love?  
With your love, yeah  
Can you catch your own reflection?  
See your shell aching to keep the pearl inside  
I have heard about your butterflies  
I thought I saw your stars  
Are you love when  
The ground gives in but you're  
Finding yourself in a space  
Where it's all that you know  
Magnified to your size  
Why do you never come down?  
Boys and girls share crystal champagne kisses  
Just to taste the rain  
Racing cars and chasing satellites  
We crash alone again  
How do you love love?  
How do you love love?  
Coming on like a wave,  
I'll be a slave  
For all that you say that  
I will be  
It is you I adore  
It is you I adore  
Boys and girls share crystal champagne kisses  
Just to taste the rain  
Racing cars and chasing satellites  
We crash alone again  
How do you love love?  
Love, Love, Love  
Love, Love, Love  
With you I could get happily wasted  
Happily wasted  
With you I see the answers  
With you I'll go insane
