

Move On

Mark Owen

Ok so now its over
It'll never be the same again
The shade has changed its color
The light is shining through you
Cause its over
Its time for you to face the fact
You've got yourself a whole new track
The problem aint without
Don't hide under your pout
Cause its over

You gotta move on
move up, and move through
You've gotta move out
move up, real soon

Nobody knows the sadness that I'm feeling today
nobody knows

Who said that it was over
Don't let your efforts go to waste
You've done your time of graft
Let go and you'd be daft
It aint over
You've gotta come to terms with it
Don't get left in the has been pit
You've still got seven lives
The trier never dies
it aint over

You gotta move on
move up, and move through
You've gotta move out
move up, real soon

Don't be afraid to take hold of your reins
Don't be afraid to wipe clear your blackened slate
