

Superpower

Mark Owen

Jenny from London
Yeah she hit the spot right on
Pressing the buttons that I had forgot that I owned
Oh, Jenny, how do you do it? And how do I?
Taking the silver from out of the sky, shine on
The darkest of nights your the brightest of stars, light up
Oh, Jenny (Jenny, Jenny, Jenny, Jenny)
Won't you give me what you can?

'Cause I don't know which way
I'm going but I'm spinnin' round the sun
Trying to catch a good vibration so I can love you more

I found my superpower
I found my superpower
I found my superpower
Superpower, superpower

It's taken some time to get onto the map
One step go forward and two steps go back, way to go
Oh, won't you (Jenny, Jenny, Jenny, Jenny)
Won't you show me what you got? (Show me what you got?)

I don't know which way
I'm goin' but I'm spinnin' round the sun
Trying to capture your reflection so I can love you
More

I found my superpower
I found my superpower
I found my superpower
Superpower, superpower

Try not to waste your energy
On all those things that make you sad and unhappy
When everything is over, then it's over
Jenny said, "Whether you like it or not
It's gonna be the way it is whatever
You got everything inside you, waiting for you"
If you wanna

Superpower
Superpower (Uno, dos, tres)
Superpower (I just wanna love you)
Superpower
Superpower
