

I'm so different when you're gone  
And I don't wanna be alone  
It's too much, wherever you are  
I miss you, I miss you so much

We used to waste time, we would do it together  
If I could rewind back, I would do it again  
Now I bleed from my heart cause it hurts to lose  
Sleep in the day, in the night I search for you  
Looking all over for you

No I never knew that I would get this low  
I guess I should've loved you more

I'm so different when you're gone  
And I don't wanna be alone  
It's too much, wherever you are  
I miss you, I miss you so much

I'm so different when you're gone  
And I don't wanna be alone  
It's too much, wherever you are  
I miss you, I miss you so much  
I miss you so much

I can't let myself think of nobody other, than you  
Scared when I'm alone hiding under the covers, it's true  
Now I cry from my eyes cause it hurts to lose  
Dream in the night, in the day I search for you  
Looking all over for you

No I never knew that I would get this low  
I guess I should've loved you more

I'm so different when you're gone  
And I don't wanna be alone  
It's too much, wherever you are  
I miss you, I miss you so much

I'm so different when you're gone  
And I don't wanna be alone  
It's too much, wherever you are  
I miss you, I miss you so much
