

# Lonely

Mark Tuan

2 bottles for myself  
I know it's bad for my health  
But I got nobody else to share  
Throw pictures off the shelf  
No I don't want any help  
Sometimes I wish that nobody cared

1 breath 2 left inside of me  
3 shots I take them silently  
4 o'clock these lights are blinding me now  
Oooooo

I like it better when I'm lonely lonely all alone  
I never needed you to hold me hold me keep me close  
And you know I gave you everything  
Then you went and said to me  
That you like it better lonely lonely all alone

I know my life's a mess  
I think of making amends  
But I'll just get fucked up instead  
It's easier this way  
I found a way to escape  
The evil thoughts inside my head

1 breath 2 left inside of me  
3 shots I take them silently  
4 o'clock these lights are blinding me now  
Oooooo

I like it better when I'm lonely lonely all alone  
I never needed you to hold me hold me keep me close  
And you know I gave you everything  
Then you went and said to me  
That you like it better lonely lonely all alone

Living in silence  
Feels so timeless  
When nobody's here  
I sleep through all of the sirens  
Cause nobody showed me  
How to be lonely  
When I'm all alone  
I'm never really the only one  
And it's perfect  
You look at the surface  
It's not what it seems  
Being alone has a purpose  
So girl don't call me  
Girl don't call me  
Cause I won't be there to pick you up when you're falling

I like it better when I'm lonely lonely all alone  
I never needed you to hold me hold me keep me close  
And you know I gave you everything  
Then you went and said to me  
That you like it better lonely lonely all alone

And you know I gave you everything  
Then you went and said to me  
That you like it better lonely lonely all alone
