Running Away

Mark Tuan

Live too fast, got no regrets
I'm picking a day, I'm running away
I won't look back again
And even when I'm wrong, life still goes on
Don't wanna wait, I'm running away

Too much on the back of my mind
Two shots and now everything's fine
Too much going on and I
I'm floating but I feel nothing

So used to being alone
Do the best on my own
Said I can't but I can, oh
Get away, far away, running from you

Live too fast, got no regrets
I'm picking a day, I'm running away
I won't look back again
And even when I'm wrong, life still goes on
Don't wanna wait, I'm running away

Imma, live my life with no regrets
Never need to second guess
Waking up I'm feeling blessed
Nothing really matters cause I'm

So used to being alone
Do the best on my own
Said I can't but I can, oh
Get away, far away, running from you

Live too fast, got no regrets
I'm picking a day, I'm running away
I won't look back again
And even when I'm wrong, life still goes on
Don't wanna wait, I'm running away
