

Selfish

Mark Tuan

I know you were right
When you drew a line I crossed it
Sorry that I lost it
There was only toxic on my mind
I know I put us on the line
Didn't know the cost I
Woulda never watched us
Spend another breath on those fights

Sometimes I think about you and I together
And baby I know the truth is I was wrong
I never wanted to lose it all forever
I guess we never really get just what we want

And I know I was selfish
I know you were perfect
I know you ain't never coming back and I deserve it
I know you had questions
I left you out hanging
I wish I had one more chance to fix all the mistakes

I know I can be self centered
It doesn't mean I love myself
And I don't even have to wonder
If I was stranded out I know that you'd help

Sometimes I think about you and I together
And baby I know the truth is I was wrong
I never wanted to lose it all forever
I guess we never really get just what we want

And I know I was selfish
I know you were perfect
I know you ain't never coming back and I deserve it
I know you had questions
I left you out hanging
I wish I had one more chance to fix all the mistakes
