

# This Is Everything

Mark Tuan

Yeah, yeah  
Late night  
Stars out  
Backyard  
Stay young  
Play dumb  
Act smart  
These bloodties they bound us for a lifetime  
Same friends you call when your life hard

There's no telling where we gonna be  
But I know that you'll be close to me  
Man these kids gone dream  
Just wait and see

Singing songs  
That we've known for way too long  
Cause tomorrow could be gone  
So we just keep hanging on

So can you wait just a minute  
I don't think that you get it  
This is meant to be  
Not just a memory  
Nothings forever  
But it's all for better  
This is everything  
So give it everything

The worlds still burning  
The flames still hot  
Diving head first fuck it ready or not  
Doing 95 in my brothers drop top  
Head out the ceiling we ain't ever gone stop

Had to go and make an anthem  
I feel Bruce Banner  
Put it on the fam  
For I put it on camera  
Do it on your own all alone it's a gamble  
Leaning on each other there ain't nothing you can't handle

Singing songs  
That we've known for way too long  
'Cause tomorrow could be gone  
So we just keep hanging on

So can you wait just a minute  
I don't think that you get it  
This is meant to be  
Not just a memory  
Nothings forever  
But it's all for the better  
This is everything  
So give it everything

Come on, come on

Come on, come on  
Come on, come on  
Come on, come on  
And give it everything  
And give it everything

Come on, come on  
Come on, come on  
Come on, come on  
Come on, come on  
And give it everything  
And give it everything

Wait just a minute  
I don't think you get it  
This is meant to be  
Not just a memory  
Nothings forever  
But it's all for the better  
This is everything  
So give it everything
