

## Go Back

Markéta Irglová

To know the pain of too much tenderness,  
I would give myself to thee.  
But just to clarify, by keeping distance I confess  
that I know all too well you're not to be with me.

From across the room you held my gaze.  
The keeper of my heart came to greet you in warm embrace.

And now I feel this heat in my hands and feet.  
I have a belly full of butterflies and a weakness in my knees.

You'd better not come any closer  
'cos I lose myself if you do.  
If in truth I cannot have you,  
don't even encourage me wanting you.

Well, go back, go back, go back, go back, go back  
honey while you still can. Go back now.  
Don't delay yourself if you cannot be my man.

Go back. Go, go back. Go back. Go, go back.  
Go back. Stop teasing now, go back. Go back.  
Don't tempt me now, go back. Go back.  
It felt like I'm still caught, go back. Go back.  
Be good, go back. Go back oh, oh, oh go back(x2)  
Go back.
