

## Back To Yours

Markus Feehily

Been a victim and a fool before  
But it was like a fairytale next to you  
And the words are on your lips  
'Let's go back, to mine...'

And ya don't think twice  
No ya don't think twice

I don't wanna go back to yours  
Be just another movie star  
'Cause I know if I go back to yours  
Shame and loathing hit me hard  
But I don't wanna be alone, no  
So you gotta take me home...

And I said I had enough before  
But my head has lost again to my heart  
So I down another drink and say  
'Let's go back, to yours...'

And I don't think twice  
No I don't think twice

Now I wanna go back to yours  
Be just another movie star  
'Cause I know if I go back to yours  
Shame and loathing hit me hard  
But I don't wanna be alone, no  
So ya gotta take me home...

When the morning comes  
I'm just another movie star  
Once again I've fallen in love  
But you've had enough  
I don't wanna be alone, no  
So I just get up and go...
