

Simple Love

Markus Feehily

I took your hand, you took my time
Left a mess up in my mind
Now I'm lost, I'm far behind
The day I met you

How does it feel
Knowing that you're always on my mind
Love you're the one I can't define
But you don't even know
Waking up cold again
Looking over everything
Ya said love was a simple thing
Ya said love was a simple thing

Everything is broken now
Ya lost hope and you're choking out
Some words they are better in
But some words they are better down

These days are becoming nights
This love is becoming life
These words are becoming lies
I tried I tried I tried

Look at these mornings, look at these days
Look at that moonlight on your face
Look at these eyes and tell me you don't want my heart don't feel the same

How does it feel
Knowing that you're always on my mind
Love you're the one I can't define
But you don't even know
Waking up cold again
Looking over everything
Ya said love was a simple thing
Ya said love was a simple thing

Said love was a simple thing
Love was a simple thing
Said love was a simple, love was a simple, love was a simple thing
Said love was a simple thing
Love was a simple thing
Said love was a simple, love was a simple, love was a simple thing

I guess it was meant to be
Everything is history
No sense of bad or good
Cause love just isn't free
And that was the price to paid
For words that I meant to say
I think of the things I lost
And I know it's just too late

Look at these mornings, look at these days
Look at that moonlight on your face
Look at these eyes and tell me you don't want my heart don't feel the same

How does it feel
Knowing that you're always on my mind
Love you're the one I can't define
But you don't even know
Waking up cold again
Looking over everything
Ya said love was a simple thing
Ya said love was a simple thing

Said love was a simple thing
Said love was a simple thing
Said love was a simple, love was a simple, love was a simple thing
Said love was a simple thing
Said love was a simple thing
Said love was a simple, love was a simple, love was a simple thing

I took your hand, you took my time
Left a mess up in my mind
Now I'm lost, I'm far behind
The day I met you

How does it feel
Knowing that you're always on my mind
Love you're the one I can't define
But you don't even know

How does it feel
Knowing that you're always on my mind
Love you're the one I can't define
But you don't even know
Waking up cold again
Looking over everything
Ya said love was a simple thing
Ya said love was a simple thing

Said love was a simple thing
Said love was a simple thing
Said love was a simple, love was a simple, love was a simple thing
Said love was a simple thing
Said love was a simple thing
Said love was a simple, love was a simple, love was a simple thing

I took your hand, you took my time
Left a mess up in my mind
Now I'm lost, I'm far behind
The day I met you
