

Haven't We Been In Love Before?

Marlena Shaw

Traced your smile with my fingertips
Last night, memorizing you
If I met you in another world
I'd have no trouble, recognizing you

I'd see your face
And I'd know you right away
I'd touch your shoulder
You would turn and I would say

Oh, haven't we been (Haven't we been in love before?) in love before
Was it long ago or yesterday?
Haven't we traveled (Haven't we been in love before?) side by side
Do you remember, remember the way?

Let's pick up where we left off a lifetime ago
Take another trillion years to really get to know about our love

Haven't we been in love before?
Haven't we been in love before, hey, hey, our love
Haven't we been in love before?
Haven't we been in love before, oh, oh, our love
Haven't we been in love before?

If I stay, oh, I can't help myself because I know
I've seen your eyes before, and if I met you
On a distant moon
Well, I'd remember, and my heart would soar

I'd hear your voice as if only yesterday
I'd call your name and you would smile, and I would say yeah

Haven't we been (Haven't we been in love before?) in love before
Was it long ago or yesterday?
Haven't we traveled (Haven't we been in love before?) side by side
Do you remember, remember the way?

Let's pick up where we left off a lifetime ago
Take another trillion years to really get to know about our love

Haven't we been in love before?
Haven't we been in love before, hey, hey, our love
Haven't we been in love before?
Haven't we been in love before, oh, oh, our love
Haven't we been in love before?

Haven't we been (Haven't we been in love before?) in love before
Was it long ago or yesterday?
And haven't we traveled (Haven't we been in love before?) side by side
Do you remember, hey, remember the way?

Let us pick up where we left off a lifetime ago, come on
Takin' off our trillion years to really get to know, oh, our love

Haven't we been in love before?
Haven't we been in love before, woah, woah, our love
Haven't we been in love before?

Oh, haven't we been in love before, I said our love
Haven't we been in love before?
Haven't we been in love before? I said our love, our love, our love

Let's pick up where we left off a lifetime ago
Take another trillion years to really get to know our love

Haven't we been in love before?
Haven't we been in love before, oh, our love
Haven't we been in love before?
Haven't we been in love before, woah, woah, our love
Haven't we been in love before?
Haven't we been in love before, I said our love, love, love
Haven't we been in love before?
Haven't we been in love before, our love, love, love
Haven't we been in love before?
Haven't we been in love before, haven't we been in love
