

This World Of Ours

Marlene Dietrich

This world of ours
Can be a peaceful world
As in this night
When people everywhere
Are deep in prayer
To our lord above
Whose guiding light
Show us the way to love

This silent night
The world of ours is one
And everywhere
The hand of gods become
The greatest mind
Our world has ever known
The wonderous sights
None is now alone

The years will bring us
Many Chritstmas days
The songs we sing
Will celebrate his birth
Church belsl will ring
To bring us peace on earth
This world of ours
Can be a peaceful world
This world of ours
Can be a peaceful world
