

Get Up

Marlon Craft

Is it classless? I wish I were classless
Writin rhymes up in classes so I can surpass this mental tax is
Payin my dues to institutions and it ain't like I ain't learnin
I'd just much rather be groovin and doin it by doin
That make me a truant? So be it
And I'm far from Soviet but I'm all for the union of people, no
t the confusion of people
American capitalism's made us illusions of people
That's why I'm on my rooftop with aerial vision
So I ain't blinded by material prisons
I just put em all in bars in an attempt to flip the script, fli
p the switch, shed light on the viciousness
This is it, so be critical not cynical
I just be this lyrical young guy, no biblical
Let's have ideas before we just buy [?]
We gonna be forever underachievers

This that food for your mind so don't lay on your spine
Man it's time, gotta get up
And I ain't sayin that I'm better, I been blamin on the weather
But forget it, gotta get up
Cause the climate is dire but I ain't tryin to retire, I'm figh
tin fire with fire
Cause we can't be defeated, when they tell you be seated, repea
t it, get up

Havin visions of greatness but waitin for yourself to grow will
make you impatient
They say it's my time and I gotta take it
But takin my time is kinda passive and really I'm sick of waiti
n
So what I bring to the table is food for thought, drink for pai
n, forks in the road
But you gotta listen past the beat cause I want you to eat but
I can't force you though
So I'm workin on my catalogue, writin all day though I'm never
takin Adderall
Tell people I rap and they laugh it off til they hear me like,
"That ain't bad at all, shit man, that's actually raw"
So I ain't mad at ya'll
And no dog, I don't wanna battle ya'll
More for unity between you and me, cause I see the you in me
And we could fuck around and start a mutiny

This that food for mind so don't lay on your spine
Man it's time, gotta get up
And I ain't sayin that I'm better, I been blamin on the weather
But forget it, gotta get up

Cause the climate is dire but I ain't tryin to retire, I'm figh
tin fire with fire

Cause we can't be defeated, when they tell you be seated, repea
t it, get up
