

Gettin Wasted

Marlon Craft

Blank page, slow turn
When in Rome, but Rome burned
You never know what you gon' learn
She lookin' at me like "it's yo turn"

So I'm extendin' you an invitation
We can make a night of it, that's innovation
I'm just tired of livin' in anticipation
Afterall, it's all gettin wasted anyways
Afterall it's all gettin wasted (anyways)
Afterall it's all gettin wasted (anyway)
Afterall it's all gettin wasted (anyway)
We might as well get adjacent

I be in the gratitude, I think that's invaluable
Tell me more 'bout how you feel, and less about how you do
Let the love be lower case and the cap be capital
Like let them all get rowdy, ooh
We'll do what we have to do
If I don't know you but you beat your demons then I'm proud of you
We all fallible
I guess half the truth's gon' have to do for some nights got a fright so pal
pable
I can't put down all the vices, that be the price I guess
My worry be on the night shift when I try lie to rest

So I'm extendin' you an invitation
We can make a night of it, that's innovation
I'm just tired of livin' in anticipation
Afterall, it's all gettin wasted anyways
After all it's all gettin wasted (anyways)
After all it's all gettin wasted (anyway)
After all it's all gettin wasted (anyway)
We might as well get adjacent

Call the Uber
Roll the windows down
Sometimes it feels so good to do the wrong thing
Of all things to be thinkin' bout, all things
Tired of bein' scared of what tomorrow brings
Tell me it ain't all gettin' wasted anyways

Afterall, it's all gettin wasted anyways
Afterall it's all gettin wasted (anyway)
Afterall it's all gettin wasted (anyway)
We might as well get adjacent
Afterall, it's all gettin wasted anyways
Afterall it's all gettin wasted (anyway)
Afterall it's all gettin wasted (anyway)
We might as well get adjacent

Well my people, it's usually around the middle of a journey you feel like yo
u've made no progress at all
But the truth is, our boy has come just far enough not to give up
When you're closer to the end than to the beginning, there's no turning back
Keep pushing, Mr. Craft
We'll be watching
