

Just One Mo'

Marlon Craft

La la la la la
One-two, one-two, yeah
A one-two, one-two, yeah
Yo, yo, yo, yo, yo, yo

Mo' money, mo' problems
But I'm broke with a lot of issues
I'll try to listen to your beat
I got a lot to get to
My new low's high based on all the spots I've been to
I've been in the dark, a little shade is nothing I can't get through
Shit, but what do they know about it?
A lot of people say they can relate but I doubt it
A lot of people 'round my same age getting childish
But I've argued too much
Now my brain getting tired (shut the fuck up)
So tonight I'm gon' chill
'Fuck about tomorrow how I'm likely gon' feel
Drinks with my girl
Hitting all my favorite spots
Our relationship is good but the whiskey on the rocks
Oh no, that I can do
Sending wax candals
Shots of Jack Daniels' done got me in a damn mood
And ain't nobody really fucking with my squad so
Can't nobody tell me how to do my job like

Oh no no, just one mo'
Even if I got to borrow, Imma make it back tomorrow like
Oh no no, just one mo'
Fill my cup with [?], find a genie in the bottle like
Oh no no, just one mo'
Tell him "go ahead and pour it" even though I can't afford it like
Oh no no, just one mo'
Imma hate it in the morning
Imma hate it in the morning, oh no

Too many Stellars with the fellas
The Knicks up 10, ain't shit that you could tell us
Sauced with my dogs, these are moments that I relish
And the music all loud, everything getting embellished
I'm repelant
In the energy that they ain't clean
We don't fuck with no pollution
Man, we keep it all green
Ain't a single snake here
We just keep all team
Try to tell my lil homies that this shit ain't all dreams
Know I mean, but I don't know if all my friedns ready
So Imma party for as long as my head let me
'Cause, shit, it's 3 AM already
And my legs heavy
Headed to the deli 'cause my primo got them eggs ready (I need a bacon & egg
)
Pockets empty
I don't know, should I spent my last change on this forty with the bros
'Cause see we'll back to real life shortly I suppose

I don't want to think about it anymo'
Give me mo' like

Oh no no, just one mo'
Even if I got to borrow, Imma make it back tomorrow like
Oh no no, just one mo'
Fill my cup with [?], find a genie in the bottle like
Oh no no, just one mo'
Tell him "go ahead and pour it" even though I can't afford it like
Oh no no, just one mo'
Imma hate it in the morning
Imma hate it in the morning, oh no
Oh no no, just one mo'
Even if I got to borrow, Imma make it back tomorrow
Oh no no, just one mo'
Fill my cup with [?], find a genie in the bottle like
Oh no no, just one mo'
Tell him "go ahead and pour it" even though I can't afford it like
Oh no no, just one mo'
Imma hate it in the morning
Imma hate it in the morning, oh no
