

## Off Beat

Marlon Craft

We just need to unwind, baby we could go  
We only get one time, baby we should know  
They been tryna rush mine, I been on the frontlines  
I been havin' tough times, I been lyin' low  
There's only a little bit of days in forever  
Lotta times the rhythm doesn't stay in the measure  
She love me when I'm off beat (off beat)  
Off beat (off beat)  
Off (off) beat  
She love me when I'm

Love how you walk through the park  
Same as I walk through the dark  
Played you the chords of my life  
And never forgotten a part  
You make me feel like a bitch  
And stupid for thinkin' that shit  
Ridin' these waves of bravado  
You just be sick of that shit  
But when I be at a loss, you the answer for me  
All these habits that I got, yo they cancer for me  
Other dudes be showin off, ain't no "been there" to me  
When I feel I can't do, you so candid wit me  
On those days when I really wish Mac was still here  
I really wish facts was still clear  
This, that, and still fear  
Risk that to feel here  
Switch that, it feels weird  
Mishaps and spilt beers, I been trippin  
I'm the hair on Negative Nancy's worry-wart  
And I been called a know-it-all but you speak that one truth that I never heard before, I heard it's yours  
So let's skate before my hurt is yours

We just need to unwind, baby we could go  
We only get one time, baby we should know  
They been tryna rush mine, I been on the frontlines  
I been havin' tough times, I been lyin' low  
There's only a little bit of days in forever  
Lotta times the rhythm doesn't stay in the measure  
She love me when I'm off beat (off beat)  
Off beat (off beat)  
Off (off) beat  
She love me when I'm

You  
The truest to me [?] to me  
See the pride in my eyes  
Who you choosing to be my you  
Got beauty to me so elusive I see all the grace and your kindness wit every smile and moves  
I like watching you walk around when you half naked  
Give it to me straight about yo past we don't have chase it  
That's wasted time and that we never do, you mad patient  
I try but I can never groove  
The way that you dance in a storm is sublime  
All the clouds in my thoughts make it pour in my mind

When in mornings and mornings I'm so porcupine  
You don't let none my friends mess wit your peace of mind  
Said you'd hold me down for as long as I'd do the same  
Ironie we lift each other through the pain  
A lot's against us, have our doubts if we could do the thing  
So let's bounce before the future reigns

We just need to unwind, baby we could go  
We only get one time, baby we should know  
They been tryna rush mine, I been on the frontlines  
I been havin' tough times, I been lyin' low  
There's only a little bit of days in forever  
Lotta times the rhythm doesn't stay in the measure  
She love me when I'm off beat (off beat)  
Off beat (off beat)  
Off (off) beat  
She love me when I'm
