

## Mess Around

Marmalade

There's a mess around  
That can see about myself  
There's a mess around  
Can you hear from no one else  
There's a mess around  
Take your balls to someone else

There's a black cloud in the sky  
That I know belong to me (yes it does)  
Tell that black cloud in the sky  
Fly away don't bother me  
Hey! Hey! Hey!

There's a mess around  
There's a blow up on the stone  
There's a mess around  
Turn away I'm coming home

There's a mess around  
Tell the laze you're with the home
