

Vexed

Marmozets

Open your eyes
Open your eyes
Open your eyes

We made it here tonight
We're in it for life
I speak these words so clear now

But too many times
Too, too many times
And for so many days
So, so many days
But we've made up our minds
We've made up

I know!
I know we!
I know we all!

We've been smacked down
But we've always got back up again
We've always, always got back up again
We've been smashed down to the floor
But we always keep our heads up tall
We always, always get back up again

You left me here all night
I waited and didn't move
I knew you wouldn't come back

But too many times
Too, too many times
And for so many days
So, so many days
But we've made up...

We've been smacked down
But we've always got back up again
We've always, always got back up again
We've been smashed down to the floor
But we always keep our heads up tall
We always, always get back up again

Words are words, take it or leave it
Worse for worse, break it then make it
Words are words, take it or leave it
Worse for worse, break it then make it

Words are words, take it or leave it
Worse for worse, break it then make it
Words are words, take it or leave it
Worse for worse, break it then make it
Words are words, take it or leave it
Worse for worse, break it then make it
Words are words, take it or leave it
Worse for worse, break it then make it

We belong!

We belong!

Just look to where we've come to

We belong!
