

Cigarettes

Maroon 5

She's always in my head
Her love is hard to quit like cigarettes
I know I, I know I, know better
She's my pain and my pleasure

Breathe it out, breathe it in
Got her all on my skin
Tried to run, the trouble is

Every time I see you
Every downtown street I drive through
Going through withdrawals without you
I'm such a fiend, it's all that I want and it's killing me

She's always in my head
Her love is hard to quit like cigarettes
I know I, I know I, know better
She's my pain and my pleasure
She's always in my head
I try so hard but still I can't forget
I know I, I know I, know better
She's my pain and my pleasure

Say the word, anything
No matter what I'll give to you
Light it up, burn it down

Because every time I see you
Every downtown street I drive through
Going through withdrawals without you
I'm such a fiend, it's all that I want and it's killing me (Yeah)

She's always in my head
Her love is hard to quit like cigarettes
I know I, I know I, know better
She's my pain and my pleasure
She's always in my head
I try so hard but still I can't forget
I know I, I know I, know better
She's my pain and my pleasure

(I know I, I know I, know)
(I know I, I know I, know)
She's my pain and my pleasure
I know, I know that she's killing me slow
I know, I know, I know that she's killing me slow

She's always in my head
Her love is hard to quit like cigarettes
I know I, I know I, know better
She's my pain and my pleasure
