

Hideaway

Maroon 5

(Ooh-ooh, ooh-ooh)
(Ooh-ooh, ooh-ooh)

I know I ain't your favorite, no
But someone had to say this to you
It's been a little crazy here
We been a little anxious, you know

So maybe we forget about the past
And maybe we don't got to take it fast
It's hard to put the pedal to the metal
When you're always running out of gas

'Cause you know that no one, no one
Gonna find us, nowhere, nowhere
'Cause you know I don't even care
'Bout what we're leaving behind

We can just hideaway
You and me, we can find a way
Take this permanent holiday
It's a shit show world, you can come on over
I'll pick you up in my Cadillac
Tell your friends you ain't coming back
No regrets 'cause we're done with that
It could be just us, I can pick you up
We can run and hideaway

Ooh-ooh
Ooh-ooh
We can run and hide away
Ooh-ooh
Ooh-ooh (Ooh)

'Cause you're a devil on the mattress, yeah
To lose you would be tragic, I know
We ain't gon' get another chance
So maybe we should take it, come on, love

So maybe we forget about the past
And maybe we don't got to take it fast
It's hard to put the pedal to the metal
When you're always runnin' outta gas

'Cause you know that no one, no one
Gonna find us, nowhere, nowhere
'Cause you know I don't even care
'Bout what we're leaving behind

We could just hideaway
You and me, we can find a way
Take this permanent holiday
It's a shit show world, you can come on over
I'll pick you up in my Cadillac (Oh)
Tell your friends you ain't coming back
No regrets 'cause we're done with that
It could be just us (Ooh), I can pick you up

We can run and hideaway (Oh)

Ooh-ooh (Na-na-na)

Ooh-ooh

Run and hideaway

Ooh-ooh (Run and hide)

Ooh-ooh

Ooh

We could just hideaway

You and me, we can find a way

Run and hideaway

Ooh-ooh

Run and hideaway

Ooh-ooh

Run and hideaway

(Ooh-ooh, ooh-ooh)

We can run and hideaway

(Ooh-ooh, ooh-ooh)

Oh
