

Ice Cream

Maroon 5

Every day with you is like ice cream
Every night you're giving me nice dreams
Tell me how addicted I might be
I know what you mean, you know what I need
Ice cream

I'm drawing pictures with my fingers on a fogged up glass
I'm lost in pools of you, I'm in too deep, I'm drowning fast

It's like quick sand, so different
When you want it so bad
You can almost taste it, yeah

Every day with you is like ice cream
Every night you're giving me nice dreams
Tell me how addicted I might be
I know what you mean, you know what I need
Baby we can spend a little more time
Talking 'bout nothing 'til sunrise
Then maybe we'll do it all over again
Taste you on my lips, it's just like ice cream

Oh
Every day with you is just like ice cream

Don't want to go back to the person that I used to be
'Cause I've been wasted since I tasted you, don't ever leave

It's like quick sand, so different
When you want it so bad
You can almost taste it, yeah

Every day with you is like ice cream
Every night you're giving me nice dreams
Tell me how addicted I might be
I know what you mean, you know what I need
Baby we can spend a little more time
Talking 'bout nothing 'til sunrise
Then maybe we'll do it all over again
Taste you on my lips, it's just like ice cream

Ooh, ooh, ooh, ooh

Every day with you is like ice cream
Every night you're giving me nice dreams
Tell me how addicted I might be
I know what you mean, you know what I need
Baby we can spend a little more time
Talking 'bout nothing 'til sunrise
Then maybe we'll do it all over again
Taste you on my lips, it's just like ice cream

Just like ice
Just like ice
Just like ice

Taste you on my lips, it's just like ice cream
