

# Bad Connection

Marques Houston

Don't know what to call it, are we in a slump?  
We been on the edge, tryin' not to jump  
Jumpin' to conclusions, feelin' like we're done  
Are you actin' different, what have you become?  
I know lately I've been thinkin' I'm through with you  
I've been rackin' in my brain, don't know what to do  
Attitude is like forgive me, forget you  
I'm preparing for the end like it's coming soon

But then I start reminiscin'  
You ain't bout to be another man's happy ending  
We just need a little time together, I feel it  
Let's just take a vacay, baby, let's get on a plane, yeah

I'm not letting go, oh no  
I ain't letting go, oh no  
I ain't letting go, oh no  
I ain't letting go, oh no

Think we need some isolation  
A place where there is bad connection  
So we can get it back connecting

I know you feel the distance, even when we close  
You been so defensive, like you play for a coach  
Didn't finish your sentence, I don't like your tone  
Come in like "What happened to you?", girl I used to know  
You been bein' low [?], roll the crease with me  
You been sayin' "Goodnight" when you ain't even sleeping  
You been givin' bad vibes, where you get this energy?  
This could be the last time, I should get my days in leave

But then I start reminiscin'  
You ain't bout to be another man's happy ending  
We just need a little time to come to our senses  
Why don't we take a vacay, baby let's get on a plane

I'm not letting go, oh no  
I ain't letting go, oh no  
I ain't letting go, oh no  
I ain't letting go, oh no  
I'm not letting go, oh no  
I ain't letting go, oh no  
I ain't letting go, oh no  
I ain't letting go, oh no

Think we need some isolation  
A place where there is bad connection  
So we can get it back connecting
