

## Even Though

Marques Houston

To say I was the one to love you first  
I can only imagine how much it hurt  
Cause it wasn't always clear to see now, oh no  
Still have hope that you believe

Cause even though they say I don't  
Baby I know, that you know the truth  
And even though they say I don't  
Baby I know, you know the truth

Tried to me the perfect man  
Took me a while to understand  
It wasn't what you wanted  
Losing you wasn't part of my plan  
Tried everything to get you to understand

Cause even though they say I don't  
Baby I know, that you know the truth  
And even though they say I don't  
Baby I know, you know the truth

Cause even though they say I don't  
Baby I know, that you know the truth  
And even though they say I don't  
Baby I know, you know the truth
