

# Last Drop

Marques Houston

Homie, lover, friend  
Down to the last drop 'cause you keep it drippy  
Let me be the one  
Always down to do what you wanna do  
Top back livin', what you gotta lose? Woo  
Baby, I gotta be, yeah, yeah

I wanna be the one that you call when you're feeling low  
I wanna be the one you can call on, girl, that's for sure  
Call on me, girl, you

Can we talk for a minute?  
Girl, I want you, you know that I want you, babe  
Can we talk for a minute?  
I gotta know, baby

Come and give me all your love, wasn't even thinking 'bout it  
Got me searching for a long time  
There you go, girl, can't avoid it  
Straight ahead, but you crossed my mind  
Always down to do what you wanna do  
Top back livin' what you gotta lose, woo  
Baby, I gotta be, yeah, yeah

I wanna be the one that you call when you're feeling low  
I wanna be the one you can call on, girl, that's for sure  
Call on me, girl, you

Can we talk for a minute, baby?  
Girl, I want you, you know that I want you, babe  
Can we talk for a minute?  
I gotta know, baby  
Come and give me all your love

I wanna be the one that you call when you're feeling low  
I wanna be the one you can call on, girl, that's for sure  
Call on me, girl, you

Can we talk for a minute, baby?  
Girl, I want you, you know that I want you, babe  
Can we talk for a minute?  
I gotta know, baby  
Hey, come and give me all your love

Can we talk for a minute?  
Come on and talk to me, baby  
See, I wanna know, I wanna know  
I wanna know you, baby, I said  
Can we talk for a minute?  
Come on and talk to me, baby, I said
