Baby I can't stand there
Oh, ooh, ooh
The way you put that thing on me
Ooh, ooh
You got me second 'mercy
You ever thing I want more
And I put perfume and think that will be you '.
Girl you need someone to love you
And it need to be me
I know 'two just me
If you never take you love away
I will be the one how always stay
I will always love you
I know you date in '.
But it's just happened to us yeah and I know that you think jus
t another me
Try to get it your pain
But I will love you the way that you '
I'm working for you 'shit
Baby I just fell in love with you
And I just fall to hear you love me too
No games, .just for me
If you never take you love away
I will be the one how always stay
I will always love you
I know you feel this way
Cuz I want you but let me be the one how change that girl
I wanna be your man so girl understand
That if you give the chance I know I can
I know it's hard for you to trust me
If you never take you love away
I will be the one how always stay
I will always love you
