

Waterfall

Marques Houston

Ooooooooo ooooooooo
Ooooooooo ooooooooo

Open up wide
I want to see what you got inside
Can u make it say ahhh
Turn on your side
And I'm a let your womb be my guide
I'm willing to try (will try)
How did it feel
So we can do whatever you like (whatever you like)
Just let me in
Girl you know what happens then

Water fall come down
I want to make you come (ooooo)
I want to make it come down
Water fall come down (ooooo ooooo)
I want to make you come
I want to make it come down

I promise it won't hurt
Unless you make it hurt
So I'm going to put in work
To make sure you come first
Cause this going to be the greatest
I can already taste it
Sweet like momma's pastry
Be careful with the
Don't want to go too fast
Lets to make this moment last
My hands caress that ass
Almost too much to grab
Is it too much to ask
Right before I blast
And my love's all over these sheets
Girl I want you to rain on me

Water fall come down

I want to make you come (ooooo)
I want to make it come down
Water fall come down (ooooo ooooo)
I want to make you come
I want to make it come down

Just like the ocean
Its overflowing
We'll just keep going
Just like the river
We going to keep splashing
There's so much passion

Water fall come down
I'm going to make it come
I'm going to make it come down
Water fall come down (ooooo ooooo)

I'm going to make it come
I'm gonna I'm gonna
Waterfall come down (ohhhh yeah)
And don't worry about the mess
As long as there's happiness
Waterfall come down
I'm going to make it come down

Just like (just like) the ocean (the ocean)
It's everflowing (it's everflowing)
We going keep going (we'll just keep going)
Just like (just like) the river (just like the river)
Said you know we going to keep pressing
Cause there is so much passion

Ooooo oooooo
Just let it rain let it rain let it rain let it rain let it down on me girl
Oh girl
All I wanna do all I wanna do is make your water come down
