

Be Easy

Mars Argo

Once upon a time there was a man who whispered in my ear
"I make magic all the time, there's nothing you should fear"

He locked me in a hospital and filled me full of chemicals
He kept me in his castle just so no one else could hear me singing

Be easy
Be easy
Be easy
Be easy

What was so impossible about giving me a chance?
Forgive me for believing in a promise and a plan
I put my trust in you, boy
I really thought you'd follow through

Be easy
Be easy
Be easy
Be easy

I'm tearing my hair out, I'm so stressed out
Tear-tearing my hair out
I'm tearing my hair out, I'm so stressed out...

So stressed out
So stressed out
So stressed out
So stressed out

Be easy
Be easy
Be easy
Be easy
