Machine

Mars Argo

Why can't I see you?
You took me to a place that wasn't safe
For me and you

We saw the Milky Way at night
You put up a fight with me
Now we're leaving

What happened to the Monday nights?
We would fall asleep at three
I think that we could be the same

I think I'm insane
My brain is telling me
I'm a machine

Machine, machine

My friend's got a forty with his fifty on
Said the world's gonna end but I think he's wrong

I know it's true
The things I do for you and me
Now we're leaving

Machine, machine...
