

One Wish

Mars Argo

If I had one wish
My one wish would be you
If I had one wish
I'd wish you were here

Oh a year ago, I went to a desert covered with snow
In it I found a deserted lamp, a djinn came out and said he'd understand
A wish he'd grant to me, I never thought it would be so easy

If I had one wish
My one wish would be you
If I had one wish
I'd wish you were here

And when it comes to you
And when it comes to me
I never thought it would be so easy

Oh a year ago, the snow was falling at my door
In the night the stars shined at me, I said one wish was all I need
I never really thought it would be so easy

If I had one wish
My wish would be you
If I had one wish
I'd wish you were here

And when it comes to you
And when it comes to me
I never thought it would be so easy

Hold me, 'cause I love you
Touch me, 'cause I have you
Have me, 'cause I want you
Will we ever be together?

Oh will we ever?
Oh will we ever?
Oh will we ever?
