

Wasting Away

Mars Argo

Wasted away again
Warm milk dripping down my skin
Your words running through my head
If I'm sick, I'm sad, I'm mad

On and off and on with you
Off and on and off with you
On and off and on with you
Off and on, in love with you

Wasted away with you
Taste it 'cause you want it too
On and off and on with you
Off and on, in love with you

Wasted away again
Your words dripping down my head
Comfort makes me sick again
And I'm sick, I'm sad, I'm mad

On and off and on with you
Off and on and off with you
On and off and on with you
Off and on, in love with you

Wasted away with you
Taste it 'cause you want it too
On and off and on with you
Off and on, in love with you

You might lie and I might cry
I'll wipe my eyes, nevermind

Wasted away with you
Taste it 'cause you want it too
On and off and on with you
Off and on, in love with you

On and off and on with you
Off and on, in love with you
Off and on, in love with you
Off and on, in love with you
