

## How High

Marsha Ambrosius

How high am I supposed to jump?  
Supposed to jump for you  
How low am I supposed to go?  
Supposed to go for you  
I know you lovin' makes me so  
The end of the earth, wind and the fire wouldn't know  
How to stop me loving you

It's the way you kiss me  
The way you hold me  
Can't do without you  
I can stop my heart from runnin' round  
'Cause you spin me around and got me  
Wide open for you  
I would dive open for you  
So here I come, gotta let you know  
One more day would be much  
I just want to be with you forever  
And a day wouldn't be too much  
I just wanna be with you forever  
And a day, babe

How high am I supposed to leap?  
Supposed to leap for you  
How low am I supposed to feel?  
Supposed to tee! for you  
I know you lovin' makes me weak  
The end of the earth, wind and the fire wouldn't know  
Nothing can stop me lovin' you

It's the way you miss me  
The way you know me  
Can't do without you  
I can stop my heart from runnin' round  
'Cause you spin me around and got me  
Wide open for you  
I would dive open for you  
So here I go, gotta let you know  
One more day wouldn't be too long  
I just want to be with you forever  
And a day wouldn't be too long

I just want to be with you forever  
And a day, babe  
(For you) For you  
(I'll do) I'll do  
Just about anything to make you happy, you know it's true

Can't you tell how much I love you, when you look into my eyes?  
Can't you feel how much I need you, when we kiss goodbye?  
'Cause this is your song, one day won't be too long  
I just want to be with you forever  
And a day wouldn't be too much  
I just want to be with you forever, baby  
I just want to be with you  
And a day, baby
