

Self Care / Wrong Right

Marsha Ambrosius

Let me take you on a trip
Let your mind be free and it
Feels like you are dreaming

I float away
Something about the moon that makes me fill this empty space
Knocks me offa my feet
Knock me offa my feet, baby
I'm flying high
Something about the moon
That makes me wonder why
Can't enjoy this alone
Can't wait for you to come on home
Can't wait for you to come on home to me

Don't you know that you need somebody
I need somebody
I want somebody too
Don't you know that I need your body
Without your body
Tell me what I'm gonna do
Me

Tell me what you like
I been waitin' on ya body all night
In the meantime, I gotta get it right
When I see you and it's on sight
It's on sight boy
Can't you see just how I'm feelin' me
I got to satisfy my appetite
Till I get to you, let me take a bite
Right here

Don't you know that you need somebody
I need somebody
I need somebody too
Don't you know that I need your body
But without your body
Tell me what I'm gonna do
Imma do me
Me
Imma do me
Me

Touch you, baby
Boy, I want to touch you, baby
Touch you baby, mmm

Looking in the mirror
At these tears I cry
Thought that I knew you
But you keep on telling me lies
How did this come to be
Ooh, after all this time
It's getting much harder
Gonna have to say goodbye
Then you do something to make me stay

Bags are at the door
And now I'm dropping panties to the floor
Ooh, you got me coming back for more like

Please don't go
Giving me good like
You so hood like
Please don't go
Kissing all on me
This so wrong right
Please don't go
Giving me good like
You so hood like
Please don't go
Licking all on me
You so wrong right now

Ooh, this incredible, it's like a medicine (Take that)
Every single time, I'm coming back again (You want that)
I tried to explain what you do to me (What I do to you)
Ooh, must be the D

I must got that good good yeah
Got her chocking on this back wood, yeah
So please don't go
Giving me good like
You so hood like
I'm like
Please don't go
Kissing all on me
This so wrong, right
Please don't go

Don't you know that you need somebody
Licking all on me
You so wrong right now

Oh yeah, I must, I must got that good good
Some of that best she ever had that
Ooh
Yes you got that good good
The best I ever had that
Mmm

Please don't go
Oh, do better than that
Please don't go
Mmm, gonna have to get down on your knees
Please don't go
Please, baby
