

## Today

Marsha Ambrosius

Feels like a million miles away  
I wanna turn around and do it over  
But what would that change?  
Oh, you wouldn't love me still  
You wouldn't care for my heart that I gave to you only  
But so I thought I know yesterday  
Just come back to stay (Come yesterday)  
Come back to stay (Come back to stay)  
(Come yesterday)

Now I really need you  
It's impossible I hear you  
If it's possible to love you, then let me today

Feels like a million miles away  
I wanna do it all over, but what would that change  
Oh, you wouldn't love me still  
You wouldn't care for my heart that I gave to only you  
But so I thought I know yesterday  
Just come back to stay (Come yesterday)  
(Just come back and stay)

Now I really need you  
It's impossible, I hear you  
If it's possible to love you, then let me today  
Come yesterday, for my heart I gave to you, oh  
Just come back to stay (Come yesterday)  
(Come back and stay)

Now I really need you  
It's impossible I hear you  
If it's possible to love you, then let me today  
Baby  
(Come yesterday)
