

Tunisian Nights

Marsha Ambrosius

There's something that I'd like to tell you
Something that needs to be said
Just lay your head on my pillow
Let me get you ready for bed
I'll blow your mind in the moonlight
Show you my fantasies

Been around the block a few times and I
Seen a couple things I like and I
Couldn't wait to call you mine, oh I
Know that you feeling me too, ooh I

Must be written in the stars
Must be written in the cards
Must be the way that you are
Tell me that you love me

Let's fall in love
Before the street lights come on
I wanna fuck
Until the birds begin to sing
A song for our love
And when it's all said and done
This could be us
Baby, baby, baby

Before the street lights come on
I wanna fuck
Until the birds begin to sing
A song for our love
'Cause when it's all said and done
So this could be us, baby
This could be us
So this could be us
This could be us

Let's fall in love
Before the street lights come on
I wanna fuck
Until the birds begin to sing
A song for our love
And when it's all said and done
This could be us
This could be us
This could be us
Oh, this could be us
This could be us

This could be us, baby
All your love, baby, oh baby
