

Live It Up

Marshall Crenshaw

You never want to comfort me
Knowing what you really need
You always say you've had enough
You never want to give it up

But everybody's got to move and
Everybody's got to groove
Everybody needs love sure enough
Everybody ought to live it up

Well, what did I do that was wrong?
I just want to have some fun
We've been holding back for too long
And I want to live, we've gotta live it up

I've got to ease your mind
I know I'll have a bit of luck
To make you have a good time
I've got to make you live it up
