

What Do You Dream Of

Marshall Crenshaw

Just last night when we were in bed
This thought came into my head
I would give anything girl
If I could steal a look into your secret world

What do you dream of?
Oh what do you dream of?
I'll never know what really lies
Behind your sleeping eyes
What do you dream of?
Oh what do you dream of?

Can you leave your worldly cares behind
Or do they rule your mind
When I see you smile, I've got a reason to smile

Oh what do you dream of?
I wonder once in a while

Close your eyes you know it feels fine
To let yourself finally unwind
From fighting hard to stay in the game
For all your trouble and time, you're getting more of the same

What do you dream of?
Oh what do you dream of?
When you're in a world that's yours alone
