

Don't Speak

Marshmello

We've been talking in circles all night
And I feel like, like
I forgot what it was even about

We've been trying to pick a side
Thinking we're right
But we ain't right, right
And all it does is break us down

Baby, we can talk about it in the morning
Right now, I just wanna feel you in the moment
If you give it to me right, I might not notice

(Baby, don't speak)
Don't speak
Baby, don't speak
Give me sweet dreams
Baby, don't speak tonight
Hold me
Body's on me
Teleport me
Baby, don't speak tonight

Baby, don't speak tonight
Don't speak
Baby, don't speak
Give me sweet dreams
Baby, don't speak tonight
Hold me
Body's on me
Teleport me
Baby, don't speak tonight

Pull me closer, kiss on me all night
So we keep quiet, quiet
It's better not to make a sound

Baby, we could talk about it in the morning
Right now I just wanna feel you in the moment
If you give it to me right, I might not notice

(Baby, don't speak)
Don't speak, baby, don't speak
Give me sweet dreams
Baby, don't speak tonight
Hold me
Body's on me
Teleport me
Baby, don't speak tonight

Baby, don't speak tonight
Don't speak
Baby, don't speak
Give me sweet dreams
Baby, don't speak tonight
Hold me
Body's on me

Teleport me
Baby, don't speak tonight
