

# Miles On It

Marshmello

New truck, big lift  
Old roads we've been  
Tearing up since way back when  
But these wheels are innocent  
New hitch, new seats  
No history  
And you just can't fake that  
So, let's change that

Girl, let's go put some miles on it  
Back of the Chevy with the engine running  
Just you and me in a truck bed wide like a California King  
We could break it in if you know what I mean  
Put some miles on it  
Back of the Chevy with the engine running  
Just you and me in a truck bed wide like a California King  
We could break it in if you know what I mean  
Put some miles on it  
We could break it in if you know what I mean

All night, no brakes  
All tail, no gate  
Ain't gotta try too hard  
My baby's push to start  
All torque, full speed  
Off-road, on me  
Zero to a hundred-fast  
My foot ain't touch the gas

I said, "Hey, baby, slow it down, let's make it last"  
You said, "Where's the fun in that?"  
Yeah, let's go

Put some miles on it  
Back of the Chevy with the engine running  
Just you and me in a truck bed wide like a California King  
We could break it in if you know what I mean  
Put some miles on it  
We could break it in if you know what I mean  
Put some miles on it  
We could break it in if you know what I mean

Mile after mile after mile after mile  
Turn up the night like that radio dial  
Shoulder to shoulder where nobody knows  
Know where we're going, we ain't going home

We're putting miles on it  
Back of the Chevy with the engine running  
Just you and me in a truck bed wide like a California King  
We could break it in if you know what I mean  
Put some miles on it  
Back of the Chevy with the engine running  
Just you and me in a truck bed wide like a California King  
We could break it in if you know what I mean  
Put some miles on it  
We could break it in if you know what I mean

Put some miles on it  
We could break it in if you know what I mean  
Put some miles on it
