

# Ritual

Marshmello

You, you're givin' me life  
Givin' me all of you, mmm  
Oh, it's true  
Losin' myself  
I found me right next you, oh yeah

You're something different  
Instead of breaking my heart, you're picking up all the pieces  
The way you're taking my heart  
You're making it still look easy  
But when I'm stuck in my head  
We stay in bed through the weekend, oh yeah

Oh I,  
I never knew love, never knew love, never knew love  
Living without you, living without you  
Oh I,  
I don't feel lost, I don't feel lost, I don't feel lost  
Now that I've found you, now that I've found you

So hold me down  
Don't know what I'd do if I was without you  
Now, hold me down  
Babe, it's all true  
Now that I've found you  
It's my ritual

(Now that I've found you)  
So hold me down  
Don't know what I'd do if I was without you  
Now, hold me down  
Babe, it's all true  
Now that I've found you  
My ritual

You  
First thing on my mind when I'm waking up is you, oh yeah  
When I'm do  
You spin me around like color wheel, yes you do  
Oh yeah

You're something different  
Instead of breaking my heart, you're picking up all the pieces  
The way you're taking my heart  
You're making it still look easy  
But when I'm stuck in my head  
We stay in bed through the weekend, oh yeah

Oh I,  
I never knew love, never knew love, never knew love  
Living without you, living without you  
Oh I,  
I don't feel lost, I don't feel lost, I don't feel lost  
Now that I've found you, now that I've found you

So hold me down

Don't know what I'd do if I was without you  
Now, hold me down  
Babe, it's all true  
Now that I've found you  
To my ritual

(Now that I've found you)  
Never knew love, never knew love, never knew love  
Living without you, living without you  
Oh I, I don't feel lost, I don't feel lost, I don't feel lost  
Now that I've found you, now that I've found you  
(It's my ritual)

Say you'll never let me go

'Cause I'm lost without my ritual
