# Desperate Lovers

**Marta Sánchez**

Hear the voices whispering
Always watchin' every move we make.
Love is only black or white
And we know the chances that we take.
Afraid of what they'd do,
Afraid of what could happen if they knew.
Bout me and you.

Desperate lovers.
Gotta sneak way,
Gonna steal away again tonight, tonight.
Desperate lovers.
Gotta find a way,
Always gonna find a way to hold on tight.
I'd do anything to be with you,
Two shadows running through the night.
Desperate lovers.

It's a wonder love can grow
When there's so much anger,
So much fear around.
But somehow we found each other,
Even though we're both from
Different side of town.

Don't know what they'd do, i
Don´t know what would happen if they knew.
Bout me and you

(repeat chorus)

Spoken:
Maybe someday we can be,
Be together naturally, no pain, no pain.
Lovin' in the light of day,
Not afraid of what they're gonna do or say.
Eyes that just won't see
Till the time when our hearts can be free
Cause we must be.
